ESSENTIAL JOB FUNCTIONS

Essential job functions are the fundamental duties of a position: the things a person holding the job absolutely must be able to do.

To actively support and uphold the City's stated mission and values. To supervise and coordinate activities in the Regulatory Compliance Section of the Environmental Services Division of the Municipal Utilities Department; to act as a liaison between the City and federal, state, and local public health and environmental agencies; to help develop and clarify environmental laws, standards, policies, and requirements; to develop programs, strategies, and reports to ensure compliance with environmental regulatory requirements; and to provide complex technical assistance to Municipal Utilities and other department administrators on environmental laws, regulations, policies, and concerns.

OTHER DUTIES AS ASSIGNED

Please note this job description is not designed to cover or contain a comprehensive listing of all activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities, and activities may change at any time with or without notice.

- Manage, coordinate and evaluate the activities and functions of the Regulatory Compliance Section; assign work activities to subordinate staff and monitor workflow; review and evaluate work products, methods and procedures to ensure quality and compliance.
- Develop and update internal guidance documents and procedures for compliance with environmental laws, regulations, and permit requirements.
- Maintain a database tracking system of environmental permits, regulations, and associated reporting requirements.
- Represent the City to federal, state, and local agencies on environmental issues.
- Coordinate with other department management and staff in developing strategies to ensure compliance.
- Review existing and proposed legislation, rules, and guidance documents, and identify requirements that may affect City operations and programs.
- Negotiate and obtain required federal, state, and local environmental permits and approvals for City facilities, including national Pollutant Discharge Elimination System (NPDES) permits, Aquifer Protection Permits, Air permits, and reclaimed water reuse permits.
- Coordinate submittal of required environmental compliance and non-compliance reports to regulatory agencies, including drinking water, storm water, and wastewater discharge reports.
- Coordinate quality assurance, quality control, and peer-review processes for laboratory analytical results and data reporting.
- Represent the City in regional organizations to track, develop, and influence regulations and policies
- Coordinate implementation of programs, tasks, and monitoring required by regulations and permits.
- Plan and coordinate internal environmental compliance assessments for City facilities with other sections, divisions, and departments.
- Brief management on environmental compliance issues related to City operations.
- Provide pro-active performance planning utilizing performance management tools.
- Perform related duties as assigned.
